

QUITWORKS

A solution for providers to help patients quit smoking

Services for Healthcare Facilities and Clinics

Healthcare Facilities and Clinics That Want To Start Using QuitWorks

- ▶ QuitWorks offers special assistance free-of-charge to healthcare facilities (hospitals, clinics, larger provider practices) that wish to address tobacco use and start using QuitWorks.
- ▶ We offer:
 - ▷ Presentations at your facility with decision-makers
 - ▷ QuitWorks enrollment forms customized for your facility*
 - ▷ Recommendations on tobacco fields and how to integrate QuitWorks referrals into your electronic medical record systems
 - ▷ On-site and telephone assistance to assist with QuitWorks implementation
 - ▷ On-site tailored training for clinical staff
 - ▷ Participation in the QuitWorks rewards and recognition program
 - ▷ Opportunity to learn from hospitals or health centers that have successfully implemented QuitWorks.

To start using QuitWorks or to learn more, email QuitWorksInfo@MakeSmokingHistory.org or call John Bry at the MA Department of Public Health, 617-624-5973.

Current QuitWorks Users

- ▶ Many hospitals, health centers and clinics in Massachusetts already use QuitWorks.
- ▶ *Please check with your administrator* to verify if your facility is already using QuitWorks. It may also be incorporated in electronic record systems, if you have one. You can check if your facility *has a customized form* on www.quitworks.org.
- ▶ You may continue to use the QuitWorks form in place. However, we encourage you to swap out the older one for this new, simplified version.
- ▶ If your facility has a customized QuitWorks form, we will prepare a new one and post it online at www.quitworks.org soon.

*The QuitWorks enrollment form included in this packet is *universal* and can be used by any healthcare provider in any setting.
